

Coiled Tubing Swivel Joints

DSTI's fluid swivel joints provide reliable, 360° continuous rotation for coiled tubing and service reel applications.

Swivel Joint Solutions For Coiled Tubing & Service Reel Applications

Designed for rugged duty and high pressure well intervention - DSTI's swivel joints deliver reliable fluid transfer for coiled tubing applications such as cleanouts, circulation, hydraulic fracturing, acid stimulation, cementing, and drilling.

As a global leader in specialized swivel joint and rotary union products, DSTI provides complete, integrated swivel joint solutions for coiled tubing reel systems built to strict customer specifications.

Multi-Passage Designs For Service Reel Applications

- + Designed To Provide Hydraulics To Service Reels
- + Sealing System Compatible W/ Corrosive Media
- + Crosstalk Protection Available
- + Electrical Slip Ring Integration Options (Data/Power Transfer)
- + Designs For Onshore & Offshore Environments
- + Specialized Designs For Direct Integration Into Customer Equipment

Single Passage, High Pressure Designs For Frac Fluid / Drilling Mud

- + High Pressure Designs - 15000+ PSI (Cold Working)
- + Standard & Sour Service Options
- + API BS Gaskets For Static Connections
- + Tungsten Carbide Wear Inlay For Extended Seal And Shaft Life Between Rebuilds
- + 1.0", 1.5", 2.0", 3.0" Standard Tube Sizes - Other Sizes Available
- + Designs For Onshore & Offshore Environments
- + Specialized Designs For Direct Integration Into Customer Equipment
- + Modular Design Allows For Quick Field Seal Change Out

Shaft Mounted Safety Plug Valve Designs

- + Multiple Passage Designs (Typically For Hydraulic Use)
- + Shaft Mounted - Wide Range Of Thru-Bore Options
- + Heavy Duty Bearings
- + Improved Safety - Allows For Hydraulic Activation Of Plug Valve
- + Designs For Onshore & Offshore Environments
- + Specialized Designs For Direct Integration Into Customer Equipment

About Us

DSTI specializes in the design and manufacturing of critical oil and gas fluid solutions worldwide.

Between our proven technology and long-term experience working with highly complex applications, we aim to achieve our customers' project goals by reducing costs, increasing efficiency, and decreasing risks.

Our core business segments are fluid rotary unions, electrical slip rings, and value-added products and services providing a single-source solution from design and manufacturing through to testing and qualification - all under one roof.

We conduct our operations to ensure our people work together and take responsibility for the health and safety of ourselves and others, to minimize our impact on the environment and to ensure the best quality in products and services.

IN-HOUSE CAPABILITIES & SERVICES

Engineering & Simulation

Project Management

CNC Precision Machining

Assembly, Testing & Qualification

Inspection & Quality Management

Welding & Fabrication
