

# Subsea Flowline Swivels

DSTI subsea swivels reduce installation time and equipment stress by allowing flexible flowlines to rotate up to 360 degrees.

Worldwide, Oil and Gas equipment OEMs and operators count on DSTI for a wide range of subsea fluid solutions.

DSTI subsea swivels are designed, manufactured and qualified to API 17D, 6A and Petrobras requirements, all within our North American headquarters.

## 250+ Subsea Swivels Delivered

- + Christmas Tree Connections
- + In-Line T Connections
- + Production Manifold Connections
- + Pipeline End Terminations (PLET) Connections
- + Free Standing Hybrid Risers (FSHR)
- + Pipeline End Manifold (PLEM) Connections

## 100+ Subsea Swivels Under Contract

Installation  
Depths To 3,500+  
Meters

Working  
Pressures Up To  
15,000+ PSI

Bore Sizes  
Ranging From  
2" - 16"+

Designs Suitable  
For HPHT  
Applications

Designed To Be  
Operated By ROV

Torsion Resistance  
Solutions While  
Swivel is Energized

Complete  
Solutions Available  
Including ROV  
Panels, Hot Stabs,  
Bulk Head Fittings,  
& More

Specialized  
Bearing Design To  
Absorb Bending  
Moments & Loads

Available In  
API Flange/Hub,  
Grayloc & Other  
Connections

# About Us

DSTI specializes in the design and manufacturing of critical oil and gas fluid solutions worldwide.

Between our proven technology and long-term experience working with highly complex applications, we aim to achieve our customers' project goals by reducing costs, increasing efficiency, and decreasing risks.

Our core business segments are fluid rotary unions, electrical slip rings, and value-added products and services providing a single-source solution from design and manufacturing through to testing and qualification - all under one roof.

We conduct our operations to ensure our people work together and take responsibility for the health and safety of ourselves and others, to minimize our impact on the environment and to ensure the best quality in products and services.

## IN-HOUSE CAPABILITIES & SERVICES

Engineering  
& Simulation

Project  
Management

CNC Precision  
Machining

Assembly, Testing  
& Qualification

Inspection & Quality  
Management

Welding &  
Fabrication
